Forecast for Monday 18 Sep 2023

Weather: Cloudy with rain becoming persistent and heavy for a time in the morning, then clearing northeastwards. Drier, brighter weather will follow for the afternoon with a few showers.

Chance of cloud-free hill tops above 800m: Little chance in the morning, improving 70% in the afternoon.

Low cloud and visibility: Very misty conditions for time in morning with poor visibility as heavier rain passes by. Also extensive cloud cover well down the hills. Visibility will improve very good from the west by the afternoon with clouds lifting and breaking up.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Met Office Aberdeen Meteorologist's View
Note lighter winds for a time in the morning, then winds becoming strong over higher ridges and summits with increasing wind-chill. Freezing level falling towards higher Cairngorm tops with the risk of a shower turning sleety later.

Forecast for Tuesday 19 Sep 2023
Weather: Cloudy with some rain in the morning, mainly on south of area. More persistent, heavier rain extending to all ranges during afternoon and early evening.

Maximum wind: Southwest winds 15 to 20mph in the morning, increasing 30mph with gusts 50mph on the tops during afternoon.

Chance of cloud-free hill tops above 800m: 20% in south of area, 60% in north.

Low cloud and visibility: Misty conditions for much of the day in south of area with extensive cloud cover above about 600 to 700m. Good visibility in north across ranges such as Monadhliath and northern Cairngorms. Visibility becoming poor in all areas as heavier rain moves in with cloud bases well down the hills.

Temperature: **Glens:** 7 Celsius rising to 14 Celsius.
At 800m: Plus 7 Celsius.
Freezing level: Above the summits.
